

IN THE CLAIMS

This is a complete and current listing of the claims, marked with status identifiers in parentheses. The following listing of claims will replace all prior versions and listings of claims in the application.

1. (Currently Amended) A method of storing printed products in one or more layers, the method comprising:
~~characterised in that storing~~ the printed products are stored on at least one substantially circular conveyor track (1),;

~~in that supplying~~ the printed products are supplied to the conveyor track (1) at least at one point in the track-
(1),; and

~~discharging in that~~ the lowermost layer ~~is discharged~~ from the conveyor track (1) through an opening (2) in the track (1), and ~~in that~~ the supplying and discharging of products ~~are being~~ independent of each other.

2. (Currently Amended) A method as claimed in ~~any one of~~ the preceding claims claim 1, wherein,
~~characterised in that~~ printed products are supplied to the track while at the same time printed products are discharged from the track (1) at the opening (2).

3. (Currently Amended) An installation for storing one or more layers of printed products, comprising:

~~one or more conveyor tracks (1),~~
~~characterised in that~~ the printed products are being stored on a substantially circular conveyor track (1), said track (1) being provided with at least one opening (2) for discharge of the lowermost layer, ~~in that~~ the conveyor track (1) comprising means (3) for guiding the lowermost layer away from the track (1) through the opening (2), and ~~in~~

~~that the~~ the -supplying and the discharging of products
~~are being~~ independent of each other.

4. (Currently Amended) An installation as claimed in claim 3, ~~characterised in that~~ wherein the means ~~(3)~~, for guiding, when in a first position, bridges the opening ~~(2)~~, whereby the conveyor track ~~(1)~~ is continuous and the lowermost layer of products is held on the track ~~(1)~~, ~~that wherein~~ the means for guiding ~~(3)~~, when in a second position, is raised, whereby the track ~~(1)~~ is discontinuous and the lowermost layer of printed products is discharged away from the track ~~(1)~~ through the opening ~~(2)~~.

5. (Currently Amended) An installation as claimed in claim 3-4, ~~characterised in that~~ wherein said means for guiding ~~(3)~~ is a flap which is movably arranged in the opening ~~(2)~~.

6. (Currently Amended) An installation as claimed in ~~any one of~~ claims 3-5, wherein ~~characterised in that~~ said track ~~(1)~~ is arranged with at least one edging adapted to hold the printed products on the track ~~(1)~~.

7. (Currently Amended) An installation as claimed in claim 3 ~~any one of claims 3-6~~, ~~characterised in that~~ wherein two or more tracks ~~(1)~~ are arranged concentrically.

8. (Currently Amended) An installation as claimed in ~~any one of~~ claims 3-7, ~~characterised wherein in that~~ at ~~at~~ least one or more tracks ~~(1)~~ are arranged above a first track ~~(1)~~.

9. (Currently Amended) An installation as claimed in claim 7 ~~or 8~~, ~~wherein~~ ~~characterised in that~~ the tracks ~~(1)~~ operate independently of each other.

10. (New) An installation as claimed in claim 4, wherein said means for guiding is a flap which is movably arranged in the opening.

11. (New) An installation as claimed in claim 4, wherein said track is arranged with at least one edging adapted to hold the printed products on the track.

12. (New) An installation as claimed in claim 5, wherein said track is arranged with at least one edging adapted to hold the printed products on the track.

13. (New) An installation as claimed in claim 4, wherein two or more tracks are arranged concentrically.

14. (New) An installation as claimed in claim 5, wherein two or more tracks are arranged concentrically.

15. (New) An installation as claimed in claim 6, wherein two or more tracks are arranged concentrically.

16. (New) An installation as claimed in claim 4, wherein at least one or more tracks are arranged above a first track.

17. (New) An installation as claimed in claim 5, wherein at least one or more tracks are arranged above a first track.

18. (New) An installation as claimed in claim 6, wherein at least one or more tracks are arranged above a first track.

19. (New) An installation as claimed in claim 7, wherein at least one or more tracks are arranged above a first track.

20. (New) An installation as claimed in claim 8, wherein the tracks operate independently of each other.
